

Parexel: Internships (2026 / 2027) Latest Opportunities

Description

Parexel offers dynamic internship opportunities for students aspiring to gain hands-on experience in the biopharmaceutical industry. As an intern at Parexel, you will have the chance to work alongside industry experts on impactful projects that contribute to the advancement of clinical research and drug development.

Responsibilities

- Collaborate with cross-functional teams to support various stages of clinical trials.
- Assist in data collection, analysis, and interpretation to support research initiatives.
- Contribute to the development and implementation of innovative strategies to optimize trial processes.
- Participate in meetings, workshops, and training sessions to enhance skills and knowledge in clinical research.
- Support the preparation of documentation and presentations for internal and external stakeholders.
- Engage in continuous learning and professional development opportunities offered during the internship program.

Qualifications

- Currently enrolled in a bachelor's or master's degree program in a relevant field such as life sciences, pharmacy, biology, or related disciplines.
- Strong academic performance with a demonstrated interest in clinical research and drug development.
- Excellent communication and interpersonal skills, with the ability to collaborate effectively in a team environment.
- Proficiency in Microsoft Office suite (Word, Excel, PowerPoint) and ability to learn new software applications.
- Detail-oriented with strong organizational and time management skills.
- Proactive attitude with a willingness to take initiative and learn from experiences.

Job Benefits

- **Professional Development:** Gain hands-on experience and industry insights through meaningful projects and mentorship from experienced professionals in the biopharmaceutical field.
- **Networking Opportunities:** Connect with peers, mentors, and industry experts through networking events, workshops, and seminars, expanding your professional network for future career opportunities.
- **Learning and Training:** Access to comprehensive training programs and resources to enhance your skills and knowledge in clinical research, drug
